CABIN ELEVATOR PRODUCTS

Today, the main factors of success are having commitment, expertise, experienced and experienced staff, creativity of the realization and development team, and listening to the demands of customers and then mixing it with modern knowledge and technology.

With the help of Almighty God and the collective efforts of managers and employees of Ayman Faraz Alvand complex, we have reached the current position. Now, with the support of 25 years of experience in the industry of designing and manufacturing all kinds of elevator cabins, hinged elevator doors and elevator frames, it has been introduced as the largest, most equipped and a symbol of confidence in this industry.

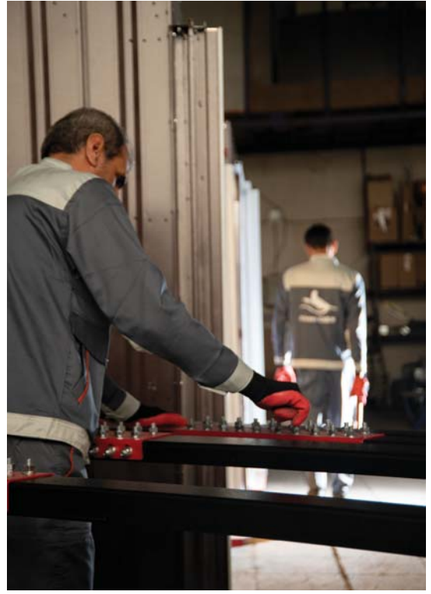

I, Mahmoud Pourzad, the managing director of Ayman Faraz Alvand Industrial Group, started my activity in the field of production since 1374, and during all this time, I have made respecting the rights of dear employers and respecting their wishes the top of my work.

It is necessary to achieve excellent quality and in providing engineering services, having experience, high scientific ability, and most importantly, having good morals and a sense of responsibility.

- Basic design, Accurate and scientific of the whole system of an elevator
- Sturdy and durable structure for the cabin
- Luxurious interior decoration and design
- Provide a fair price to industry players.

Elevator Interior Design & Decoration

Designing and executing the interior cabinet design team, by architecturally dividing the buildings into three main categories to modern, classical and postmodern, is trying to make the elevator cabin interior as consistent as possible with the architecture and use of the building.

The taste of design combined with up-to-date knowledge and use of specialized design and architecture software in the design team, as well as the accuracy of the interior design of the elevator cabin, make it a more precise and beautiful choice for customers before production.
